Subject: Mamouth Mine-S023/041

S/023/041

On January 6, 1999 Mr. Spense Hansen dropped by our office and left me a note to determine what needed to be done to clear up the Mamouth Mine transfer and permitting situation. I was not in the office and called him back and told him we had heard nothing from him or Jason Knowlton since this summer when he had stopped in our offices and told us he was going to complete the maps, etc to update the Small Mine Permit on file.

I also informed Mr. Hansen he was delinquent on his fees and as such owed the Division past permitting fees. I also stated that Grand Central, Mr. Barry Katona was trying to complete a Permitting transfer form for Mr. Hansen to sign. I also stated that he could file a new permit with updated maps etc. and accomplish the same thing as the transfer, if working with Grand Central was impossible. He stated that he would attend to this matter as quickly as possible. I also informed him he has no rights to mine on his property.

His new card he left gave the following company name and address.
Keystone Surveys, Inc. Spens Hansen, 44 W. Broadway, Suite 7045, Salt Lake City, Utah
84101(1-800-355-6041 or 801-355-6044)
